

**DuPont Teijin Films Europe Announces Polyester Film
Price Rise Effective 1st July 2008**

Luxembourg, 30th May 2008

Raw materials, fuel and other energy costs continue to escalate dramatically. As a result, DuPont Teijin Films Europe has incurred substantial increases in production and transportation costs. Our ongoing program of cost reduction and efficiency improvements is no longer able to offset these increases.

Accordingly we find it necessary to announce the following price increase effective July 1st 2008, or as permitted by contract, prices for all DuPont Teijin Films polyester film in Europe will increase by 0.22 Euro/kg.

We will continue to work together with our customers to understand the challenges of the value chain, in order to maintain our position as the leading product and service innovator in the polyester films industry.
